EXPERIENCE

Technical Lead | Barnebys AB Stockholm *Nov 2025 - Mar 2026*

- Led full stack rebuild of the Barnebys platform with Next.js, TypeScript, and a Node.js REST API using a clean layered architecture
- **Architected Algolia → OpenSearch migration** (500k-1M documents, ~8-10 RPS) with Redis caching

Senior Engineer | Karmalicious AB (Karma) Stockholm *May 2023 - Sep 2025*

- Designed and built a **real-time bidirectional sync system** between Trivec POS and the Karma platform, enabling near-zero-friction restaurant on-boarding
- Acquisition of high-profile clients (Liseberg, GreasySpoon) was directly enabled by this integration, contributing to significant revenue growth

Senior Engineer | Sinch AB Stockholm *Jan 2022 - Apr 2023*

- Maintained and extended a **TypeScript WebRTC P2P SDK** used in production by Uber and Bolt for in-app calling
- Added TURN server support, measurably improving call reliability and success rates across mobile networks

Fullstack Engineer | Klarna Bank AB Stockholm *Jul 2018 - Nov 2021*

- Enhanced a **chatbot microservice** integrating Klarna App with a third-party BPMN flow provider as part of the Chat & Chatbot team
- Developed an end-to-end testing utility to validate correctness of chatbot flows, improving release confidence

Lead Engineer | Sagarsoft Ltd. (Point72 Asset Management) India *Mar 2017 - May 2018*

- Built a WebSocket NPM library to maintain seamless connections with AWS API Gateway, used across trading platform clients

Technical Lead | Colgate-Palmolive Ltd. India *Jun 2008 - Feb 2017*

- Led development of full stack enterprise web applications serving global internal business operations
